EDUCATION

VIT Bhopal University

B.Tech in Computer Science

Expected Graduation: 2027

CGPA: 8.97/10

Social Baluni Public School

12th (PCM) – 95%

2022

10th – 92%

2020

TECHNICAL SKILLS

Languages: Java, JavaScript

Frameworks: Spring Boot, React, Flutter

Backend: PHP, REST APIs

Database: MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, VS Code, IntelliJ IDEA, Android Studio

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

AI Tools: GitHub Copilot, ChatGPT, Claude

WORK EXPERIENCE

Junior Associate Developer Intern

Calanjiyam Consultancies and Technologies

Apr 2025 – Present

- Delivered 4 client projects, independently developing 3 production-ready full-stack applications.
- Developed Admin and Customer modules using PHP, JavaScript, MySQL, HTML and CSS.
- Designed REST APIs, relational database schemas, and core backend business logic.
- Implemented secure Role-Based Authentication (RBAC) and authorization mechanisms.
- Collaborated on internal architecture design and feature development for enterprise applications.

Open Source Contributor

GirlScript Summer of Code - EXTENDED

2024

- Contributed to frontend and backend repositories across 10+ open-source projects.
- Fixed bugs, implemented new features, and improved application performance.
- Ranked 81st among 5,000+ contributors globally.

PROJECTS

Smart Expense Splitter 🐙 GitHub

- Built a full-stack expense management application using Spring Boot and Flutter.
- Implemented a graph-based debt simplification algorithm to minimize transaction count.
- Designed RESTful APIs with JWT-based authentication and secure user management.
- Designed a normalized MySQL database schema for users, groups and transactions.

Smart Health Assistant 🐙 GitHub

- Developed a full-stack health assistant using Spring Boot and Flutter.
- Designed REST APIs to process symptoms and generate personalized recommendations.
- Implemented structured request validation and reliable backend data handling.
- Built a modular backend architecture for maintainability and scalability.

Astronomy Explorer 🔗 Live Demo

- Built a responsive web application using HTML, CSS and JavaScript.
- Designed modular UI components with structured navigation and optimized user experience.

ACHIEVEMENTS

- Solved 250+ Data Structures and Algorithms problems on LeetCode.
- Ranked 81st among 5,000+ contributors in GirlScript Summer of Code EXTENDED.
- Contributed to 10+ open-source repositories across frontend and backend projects.
